

Raise *the Flock*

A one-page working ledger — print it, clip it up, fill it in pencil.

Animals bring a new kind of bookkeeping — hatch dates, hive notes, weights, bloodlines. Genetics become data; weight becomes truth. A ledger kept by the coop or the hive outlasts any memory.

FLOCK & HIVE LOG

DATE	ANIMAL / GROUP	CHECK — FEED · HEALTH · WEIGHT	READING	ACTION TAKEN

Three rules for this phase

- 1. Weigh on the same day each week.
- 2. Record the bloodline before you forget it.
- 3. A quiet hive still gets a written note.

SC *The Steading Codex* — Field Journals for the Working Homestead

The three journals for this phase: Hatch & Hover · Hive Heartbeat · Rabbit Ledger
