

Steward *the Loop*

A one-page working ledger – print it, clip it up, fill it in pencil.

The system is running; now you close it. Stock the pantry, account for what comes in and what goes out, feed the scraps back to the soil. Phase 5 hands its outputs to Phase 1 — this page is where the loop gets counted.

INVENTORY & LOOP LOG

DATE	ITEM	IN / OUT	QTY	WHERE IT GOES NEXT

Three rules for this phase

- 1. Count what leaves as carefully as what enters.
- 2. Nothing is waste until you've asked twice.
- 3. Every empty shelf is next season's plan.

SC *The Steading Codex* — Field Journals for the Working Homestead

The three journals for this phase: The Harvest Vault · Vital Inputs · The Scrap Alchemy
